

la Brise

Aromatherapy for Weddings

la Brise is a pioneer company in Singapore that specializes in essential oils and fragrances to produce the desired mood for special occasions such as weddings. We offer refreshing concepts to how weddings can be made extra meaningful by tapping into a person's basic and most powerful sense, smell.

We bring the host and guests to new heights of sensation with our mood-enhancing fragrances specially blended to enliven and add enjoyment to the occasion.

la Brise scenting package for weddings consists of cleansing the air in function hall or ballroom and replacing it with scent chosen by the couple. Illumination of lights and aromatic fragrance are lavishly used in the form of scented candles floating in exquisite glass bowls on all dining tables. We also incorporate large glass bowls filled water and scented candles or potpourris and water fountains with flowing aromatic mist on designer pedestal stands with fresh flowers along the aisle or on stage.

Wedding Favours

la Brise also offers a variety of scented gifts ranging from attractively packaged potpourris to sachets and candles for couples who wish to make a lasting impression or show appreciation to their friends and loved ones.
